Amendments to the claims:

- 1. (original) A combination comprising two anti-epileptics selected from the group list consisting of barbiturates and derivatives thereof, benzodiazepines, carboxamides, hydantoins, succinimides, valproic acid and other fatty acid derivates, AMPA antagonists and other anti-epileptic drugs, in which the anti-epileptics are present in each case in free form or in the form of a pharmaceutically acceptable salt and optionally at least one pharmaceutically acceptable carrier; for simultaneous, separate or sequential use.
- 2. (currently amended) <u>The Ccombination according to claim 1 which is a combined preparation or a pharmaceutical composition.</u>
- 3. (currently amended) The Combination according to claim 1 or 2 comprising a carboxamide.
- 4. (currently amended) <u>The Ccombination according to any one of claims 1 to 3 comprising an AMPA antagonist.</u>
- 5. (currently amended) <u>The Gcombination according to claim 1 er-2</u> wherein the two antiepileptics are selected from <u>the group consisting of carboxamides</u> and an AMPA antagonist of formula I

wherein

R₁ is hydroxy or (C₁₋₄)alkyl,

R₂ is hydrogen or (C₁₋₄)alkyl,

 R_3 is hydrogen, (C_{1-4}) alkyl, fluorine, chlorine, bromine, trifluoromethyl, cyano or nitro, and X is (C_{1-6}) alkylene, (C_{1-6}) alkylene, (C_{1-6}) alkylene or (C_{1-6}) alkylene-

(C₃₋₆)cycloalkylidene.

6. (currently amended) <u>The Gcombination according to claim 5 wherein the carboxamide is</u> selected from <u>the group consisting of carbamazepine</u>, oxcarbazepine, 10-hydroxy-10,11-dihydrocarbamazepine and the compounds of formula II

$$O = R_1'$$

$$H_2N O$$

$$(II)$$

wherein R₁' represents acetoxy.

- 7. (currently amended) <u>The Gcombination according to claim 5 er-6</u>, wherein in the formula I R_1 is hydroxy, R_2 is hydrogen, R_3 is nitro and X is methylene.
- 8. (canceled)
- 9. (currently amended) A Mmethod of treating a condition in a warm-blooded animal wherein said condition is selected from the group consisting of epilepsy and seizures having epilepsy comprising administering to the animal a combination comprising two anti-epileptics according to any one of claims 1 to 7 wherein said anti-epileptics are present in quantities a quantity which are is jointly therapeutically effective against epilepsy and in which the compounds can also optionally be present in the form of their pharmaceutically acceptable salts.
- 10. (currently amended) A pharmaceutical composition comprising a quantity comprising two anti-epileptics according to claim 1, wherein said anti-epileptics are present in quantities which is are jointly therapeutically effective against epilepsy, of a pharmaceutical combination according to any one of claims 1 to 7 and at least one pharmaceutically acceptable carrier.

11-12 (cancelled)

13. (currently amended) A commercial package kit comprising a combination of two antiepileptics according to any one of claim 1 to 7 in unit dosage form for simultaneous, separate
or sequential administration to a warm blooded animal according to method of treating a
condition in said animal wherein said condition is selected from the group consisting of
epilepsy and seizures together with instructions for simultaneous, separate or sequential use
thereof in the treatment of epilepsy.
